**LEGEND**

**Aerodromes**  
 Visual holding gates: on entry clearance shall be requested before proceeding  
 Entry/exit point for aeroplane VFR/N operation also

**VFR routes and VRR**  
 ATC discretion VFR routes and VRR

**FIR**  
 TMA  
 CTA  
 CTR

**VFR Sectors**  
 Danger, Prohibited, Restricted Areas  
 Ultra light machine activity ULM/VOS (see ENR 5.5.4)  
 Temporary Reserved Area (see ENR 5.1.4)  
 Dropping zones (see ENR 5.5.1)  
 Aerobatic areas (see ENR 5.5.2)  
 Military firing areas (see ENR 5.2.1)  
 Natural parks and areas subject to natural fauna protection (see ENR 5.6.1)  
 Aeroclub activity and Aerial work areas (see ENR 5.5.3)

**REMARKS:**  
 (1) VFR flights shall contact CUNEO Levaldigi info before reaching the points MONDOVI-BRA-SALUZZO, in order to obtain information concerning possible FIR traffic within CUNEO Levaldigi ATZ for further information see ENR 2.1.1 - VFR Rules.  
 (2) Routes from CERALE and ALASSIO around ALBENGA 1500 ft AGL.  
 (3) The Airspace of VFR Sectors from surface to reported altitudes or flight levels is classified "C", except for Swiss sectors 1/2/3.  
 (4) Reported levels are the maximum usable both for sectors and for routes.  
 (5) All flights operating within VFR sectors below Milano TMA shall keep an operational Mode A and C transponder switched on at all times during the flight.  
 (6) BOLOGNA CTR: Entry/exit point for aeroplane VFR/N operation also

**WARNING:**  
 Use of this chart during Flight is forbidden as man-made obstacles are not shown.  
 ATIS geography elements represented in this chart are referred to lower airspace only (up to FL 195).

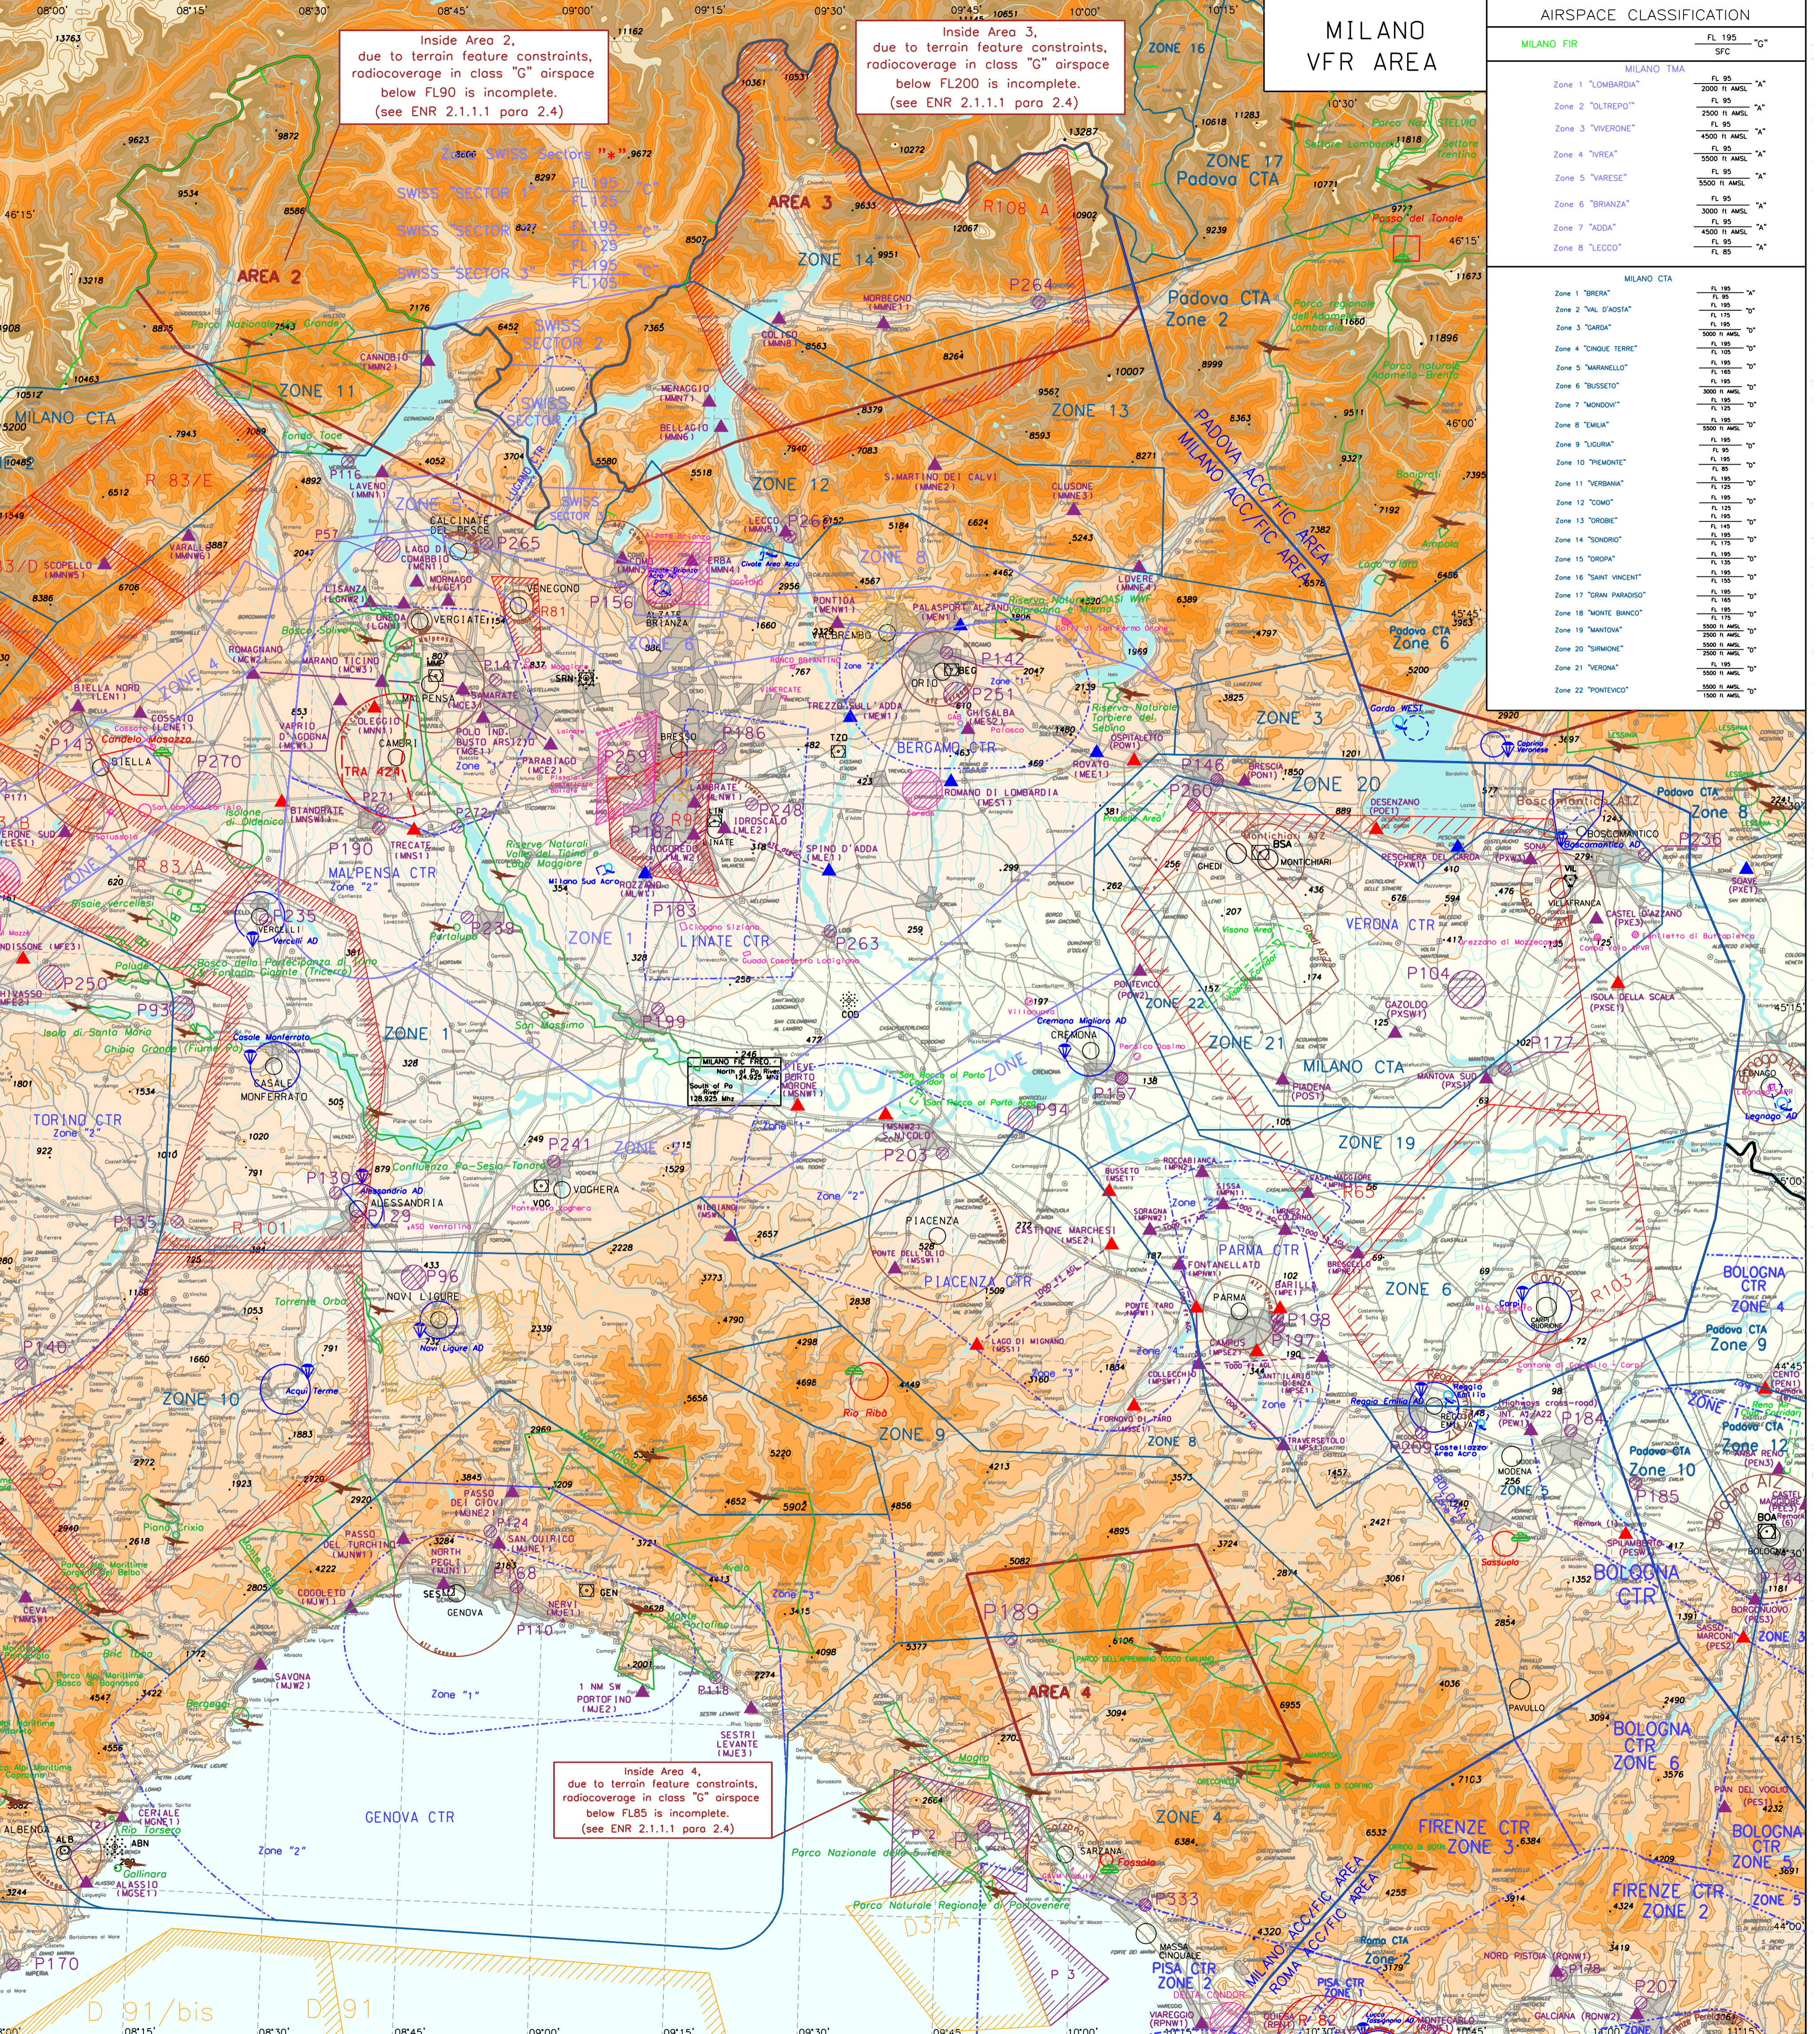

SCALE 1:500,000

**INSIDE AREA 1**  
 due to terrain feature constraints, radiocoverage in class "G" airspace below FL110 is incomplete. (see ENR 2.1.1.1 para 2.4)

**INSIDE AREA 2**  
 due to terrain feature constraints, radiocoverage in class "G" airspace below FL90 is incomplete. (see ENR 2.1.1.1 para 2.4)

**INSIDE AREA 3**  
 due to terrain feature constraints, radiocoverage in class "G" airspace below FL200 is incomplete. (see ENR 2.1.1.1 para 2.4)

**INSIDE AREA 4**  
 due to terrain feature constraints, radiocoverage in class "G" airspace below FL85 is incomplete. (see ENR 2.1.1.1 para 2.4)
